

Amendments to the Specification:

Please replace paragraph [0035] on p. 11 of the originally filed Specification with the following replacement paragraph:

-- Referring now to Figure 3a there is shown a pseudo-descriptive language containing one class of objects for an EPG 300 according to an embodiment of the present invention. Such an object as shown in Figure 3a has a title 310 and/or a channel identification 320 that may be converted into the actual channel number or program association. For example, Channel 7 may be converted to ABC, etc. It may have localized aspects 330 such as local start time 335, run length or end time 340, ad overlay 345, permissive choice of advertisements 350, etc. Other important parameters 360 may also be included in the class of objects as demonstrated in Figure 3a. --
